

SIMPLE CLEANING SOLUTIONS FOR YOUR HOME

Para Limpiar la Casa

Did you know you probably have two inexpensive “ingredients” in your pantry you can use to clean almost everything in your home?

- ❖ Baking soda – *bicarbonato de soda (sosa)*
- ❖ White vinegar – *vinagre blanco*

... just add water... but not too much!

... ¡Agregue justo agua... pero no demasiado!

For extra scrubbing power, use just a little table salt.

Para la energía de limpieza adicional, utiliza muy poca sal de mesa.

Fragrance-free and chemical-free –
better for your children – better for the earth!

*¡Perfume-libre y sustancia química-libre –
mejor para sus niños, mejor para la tierra!*
